

TLT & the North West Legal Consortium

About TLT

TLT is a full service, top 50 UK law firm with offices in Manchester, Bristol, London, Glasgow, Edinburgh and Belfast. We have been active in the public sector for over 20 years, working with local government, central government, blue light organisations and a diverse mix of other public bodies across the UK, building our genuine sector expertise across the full range of legal services.

The public sector is one of TLT's focus sectors, and we work and manage relationships with over 50 local authorities. We advise on the full spectrum of legal services, with particular specialisms for local government in construction, major projects, commercial contracts, procurement, real estate, disputes and employment matters. Clients in the North West include Cheshire East Council, Warrington Borough Council and Oldham Council amongst others.

"They team is excellent at flagging the key risks and helping the client to make an informed decision." Legal 500, Local Government North West

A leader in the Public Sector, advising central government, NDPBs, local government, blue light services and the education sector

Ranked by Legal Week as one of the top five firms for the quality of our legal advice and service delivery

Six offices across the three UK legal jurisdictions

A global network of "best in class" correspondent lawyers

Investment in new ways of working with AI solutions and award-winning shared services centre

1200+ staff and operate an open, transparent and supportive environment, where everyone contributes to the firm's success.

What can we offer Consortium Members?

We offer the usual added value benefits available typical of this panel appointment, including bespoke training, use of our Client Suite in our Manchester office, access to our legal insights and briefings, and invitations to the hundreds of physical and virtual events we hold annually across our office network. We recognise however, that law firms need to be offering more than what is expected. Therefore, we also offer:

- **TLT FutureLaw:** TLT's FutureLaw team is multi-disciplinary group of specialists, including lawyers, process designers, technologists, knowledge management experts, data analysts, product and project managers and other professionals. Their role is to design, develop and deliver new solutions to our clients, working alongside subject matter experts across our legal and business services teams. TLT FutureLaw has an initial portfolio of five offerings:
 - **Projects and outsourcing:** A legal managed service for project and outsourcing work delivering process improvements, efficiencies, actionable insights and better outcomes for clients
 - **Procurement and contract management:** Strategic commercial advice and resourcing for procurement and contract management teams to increase efficiency and realise commercial benefits
 - **TLT One:** A document, task and contract lifecycle management solution that combines market leading technology with on demand specialist legal expertise into one.
 - **TLT LegalSifter:** A combined intelligence solution, which uniquely blends specialist legal advice with artificial intelligence to do a contract review in a minute or two
 - **Regulatory Affairs:** Specialist market focused public policy & regulatory strategy, insights, influence and relationship management to help clients' businesses thrive.
